I booked a one way ticket but I can see a return ticket as well

Sergey Shevchenko - 2018-12-28 - in MY BOOKING

Once you enter your search criteria in our flight engine, we use our **Best Price Technology** to check all possible combinations to find you the best deal available. It may happen that, even if you wanted a one-way ticket, our system finds a cheaper option for you by booking a roundtrip ticket instead. If that is the case, we will book this roundtrip ticket for you so you can benefit from a better price.

You don't need to worry about your return flight as it will be automatically canceled after you have taken your outbound flight.
