Same Day Free Cancellation

Elisabeth - 2018-12-28 - in CANCELLATIONS

Have you just reserved a flight and changed your mind? We understand that circumstances can change! Just note that cancellations not made within the day of purchase will have normal conditions applied.

How do I do this?

As long as your ticket is not issued, you can cancel your reservation online and free of charge by accessing your booking through "My Reservation" section.

If your ticket(s) is/are already issued (some tariffs require instant issuance) we may no longer be able to cancel. You may however immediately contact our support via mail, telephone or chat and, if the tariff still allows cancellations, we will only charge you \$20/passenger (or the equivalent in the currency paid) for our effort.
