What is an electronic ticket (e-ticket)?

Eli Q - 2018-12-28 - in MY BOOKING

Long gone is the paper ticket, and hello to e-tickets.

Your **electronic ticket** is included in the final confirmation email you have received, it contains your itinerary details as well as your ticket number and your **booking reference**, which you will need to do your check-in both online or at the airport.

We recommend you to print this document and keep it with you during your trip. Take note that you will not receive an e-ticket if you're traveling with a Ticketless Airline, in that case, you will only need the booking reference number which will be enough for you to do your check-in online or at the airport.

Should you need further information, please contact our agents.
